Legal guidance for confident growth in Oman

Businesses operating in Oman need clear, practical legal advice that keeps pace with regulatory change and the opportunities emerging under Oman Vision 2040. Our Corporate team supports clients in making commercially sound, compliant decisions that are aligned with the country's long-term economic direction.

Navigating opportunities under Oman Vision 2040

Oman Vision 2040 is reshaping how companies invest, partner and grow. New investment pathways and sector-specific reforms across tourism, logistics, manufacturing, renewables and the digital economy are rapidly changing the commercial landscape.

We work closely with you to understand what these developments mean for your business and how to translate regulatory change into competitive advantage.

Comprehensive corporate and commercial support

Our work spans the full range of corporate and commercial matters, including:

- M&A and asset deals
- Joint ventures and strategic partnerships
- Corporate governance and board advisory
- Foreign investment structuring and regulatory approvals
- Funds formation and Shari'a-compliant structures
- Restructuring and corporate recovery
- Commercial contracts and day-to-day corporate support

A senior-led, agile corporate team

Our compact team structure means you work directly with senior lawyers who understand your priorities and respond quickly when your deal or issue demands it.

When specialist expertise is required, we draw seamlessly on the firm's wider resources. Our Corporate team combines deep knowledge of Omani law with access to a broad Middle East and international network. We advise Omani and multinational corporations, financial institutions, family-owned businesses and government-related entities, helping them achieve their growth objectives in a rapidly evolving regulatory environment.

Practical advice you can rely on

Whether you are acquiring a business, forming a joint venture, strengthening governance structures or restructuring for growth we provide advice that is practical, direct and grounded in real-world commercial experience.
